State Farm donates *Alive at 25* scholarships to Lexington One

Representatives from Lexington County School District One recognize State Farm for donating 100 *Alive at 25* scholarships.

These scholarships are available to students at all four Lexington One high schools. The scholarships cover the \$35 class tuition for 100 students.

Students participate in the *Alive at 25* program in order to purchase a campus parking permit and, more importantly, to learn behaviors that help keep them safe behind the wheel.
